Computer Engineering graduate with hands-on academic project experience in full-stack web development. Strong foundation in computer systems, digital logic, and programming (C/C++, Java, Python). Practical skills in React, Angular, Node.js, MongoDB, and Docker.  
Motivated to apply my knowledge and contribute to innovative projects.

## EDUCATION

### John Bryce – Tel Aviv - Full-Stack Web Developer Program

2025

- One of Israel's leading tech training programs, completed with hands-on projects
- Key Technologies: React, Angular, Node.js, Express, MongoDB, MySQL, Docker, Git/GitHub

### Bar Ilan University – Ramat Gan - B.Sc. Computer Engineering

2018 – 2024

- Focus: Computer Architecture, Digital Logic, Operating Systems, Data Structures & Algorithms
- Strong programming foundation in C, C++, Java, and Python

## PROJECT

### Like2Vacation (Final Full-Stack Project) | 2025

Vacation management platform with user/admin roles, authentication, likes, CRUD, filters, and reports.

Tech: **React, Node.js, Express, MongoDB/MySQL, Docker**

### Meeting Manager (Full-Stack App) | 2025

System to manage team meetings with groups and scheduling. REST API backend and React front-end with validation.

Tech: **React, Node.js, MongoDB/MySQL**

### Cryptonite (Web App) | 2025

Cryptocurrency dashboard with search, live reports, and charts using external APIs.

Tech: **HTML, CSS, JavaScript, AJAX, APIs**

### User Geolocation Manager (Angular Project) | 2025

CRUD system managing users and geolocation data with Google Maps integration.

Tech: **Angular, Node.js, MongoDB/MySQL**

### Cache Architecture (B.Sc. Final Project) | 2023

Designed memory subsystem with cache integration in SystemVerilog mesh architecture.

Tech: **SystemVerilog, GitHub**

## PROFESSIONAL AND OTHER EXPERIENCE

### Whiskey Bar & Museum, Tel Aviv – Head Waiter

2017 - Present

Led and supervised staff for high-profile events (e.g., weddings, corporate gatherings). Gained experience in leadership, teamwork, and problem-solving

### Lone Soldier in the IDF, Israel - Fighter in the Kfir Brigade

April 2016 – October 2017

Completed service with honors, demonstrating discipline and resilience.

## TECHNICAL SKILLS

### Programming

JavaScript      TypeScript  
Java              C / C++  
Python

### Front-End

React              Angular  
HTML              CSS

### Back-End

Node.js              Express  
MongoDB              MySQL  
SQL                  REST APIs

### DevOps

Git / GitHub              Docker  
AWS Basics              Deployment  
                                 Pipelines

## LANGUAGES

French - Native

Hebrew - Fluent

English - Fluent
